VISIBILITY • SAFETY AND MAINTENANCE • COMPLIANCE  
• PRODUCTIVITY • SUSTAINABILITY AND EV

## FLEET MANAGEMENT

# Get it done with Webfleet

You know what's best for your business.  
Webfleet gives you the power to make it happen.

Webfleet, Bridgestone's globally trusted fleet management solution, delivers the data insights and tools you need to enhance your fleet performance.

Cut costs, support your drivers, upgrade safety, go electric, stay compliant – whatever you want to do, with Webfleet you get it done.

# Make better decisions faster

Scan the code to know more about this topic

Webfleet vehicle tracking delivers the real-time location of every vehicle in your fleet. It tells you which driver is closest to any new assignment and gives you instant access to the vehicle information you need to know. This visibility is the key to running an efficient operation and cutting your costs.

## WEBFLEET GIVES YOU THE POWER TO:

Locate your vehicles and assets 24/7  
With real-time track and trace

Identify where to cut costs  
By comparing previous trip performance

Boost customer satisfaction  
With precise ETAs and order status sharing

Take the stress out of your operation  
With automated processes and alerts

Our customers say...

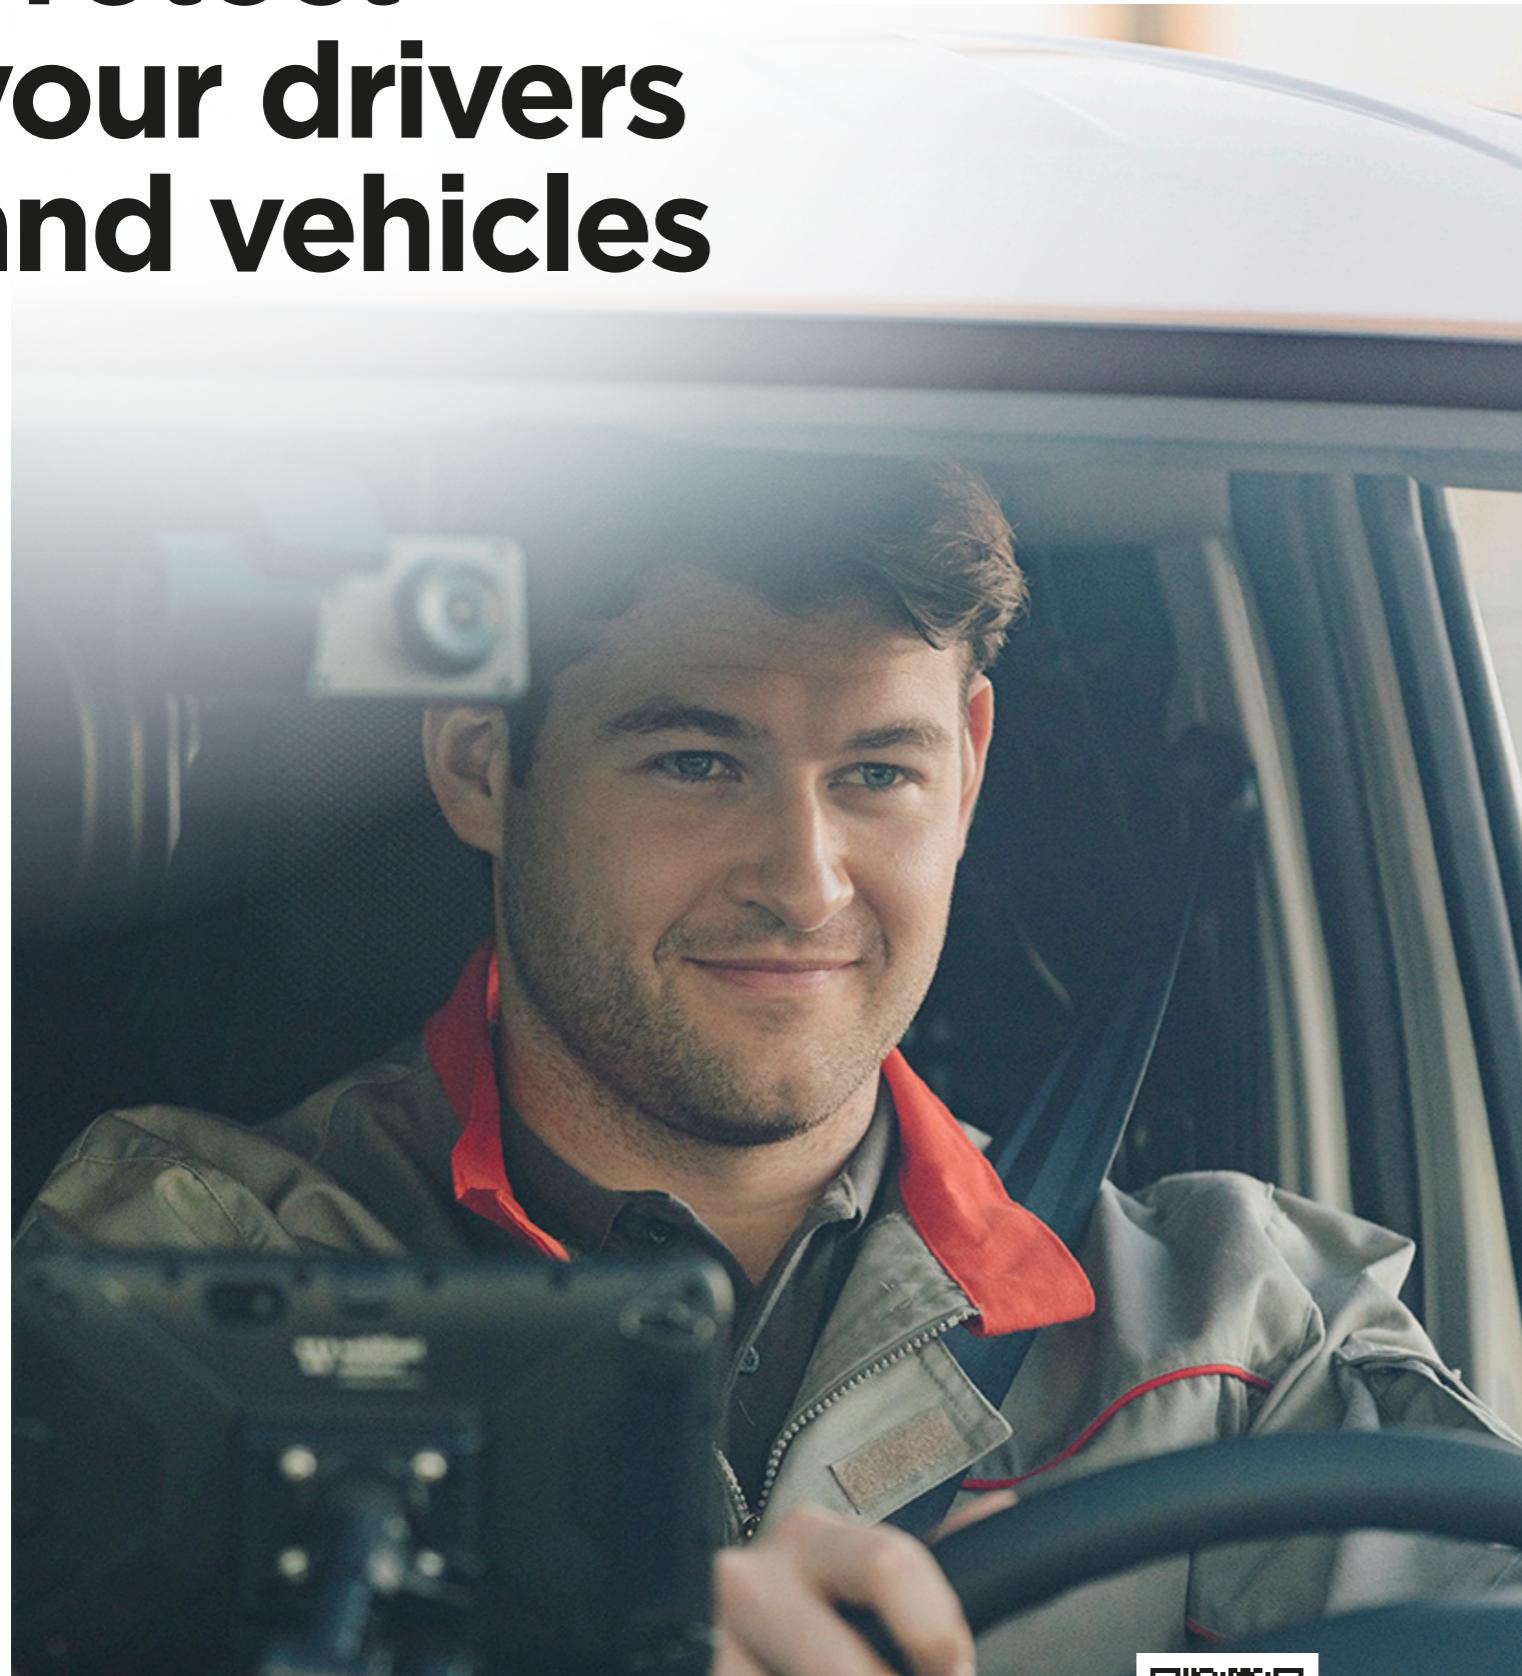

An improvement in delivery targets of 20%

*Ben Povey,  
Logistics Manager, Krispy Kreme.*

## SOLUTIONS

- Vehicle/Trailer/Asset tracking
- Dashcam/App/OEM tracking
- Driver identification and insight
- Fuel and charging insight
- Dashboard and customisable reports
- Notifications and alerts

# Protect your drivers and vehicles

Scan the code to know more about this topic

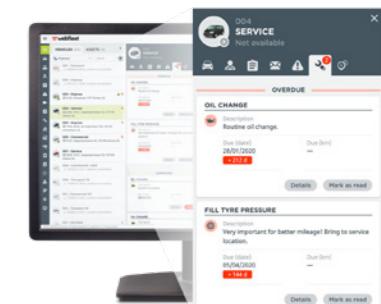

Webfleet equips you with a powerful set of solutions to improve road safety and stay on top of vehicle maintenance - from AI-enabled dashcams that help prevent accidents and disprove false claims to driving behaviour insights for targeted coaching. That's good news for your drivers, your vehicles and everybody on the road.

## WEBFLEET GIVES YOU THE POWER TO:

-  Promote safe driving behaviour  
With real-time driver coaching and performance analysis
-  Support driver well-being  
By complying with driver's hours regulation
-  Stay on top of maintenance  
To prevent unplanned downtime and costs
-  Reduce insurance claims  
With in-cab alerts and video evidence

## SOLUTIONS

- Driver insight and coaching
- AI-enabled fleet dashcam
- Driving times (RDT/Tachograph)
- Instant driving event and maintenance alerts
- Digitised vehicle inspections
- Tyre pressure monitoring

**Our customers say...**

**We use to pay out on 80% of accidents. We now only pay out on 20%, saving us £1.2 million.**

*Peter Kelly,  
Group Compliance and Fleet Manager,  
Elis UK.*

# Avoid fines and save time

Scan the code to know more about this topic

Would you like an easier way to keep your drivers, vehicles and company compliant with evolving regulations? Our range of fleet compliance solutions are here to help. They support you to avoid penalties, empower your drivers and focus on delivering more value to your customers, all while spending less time on admin.

## WEBFLEET GIVES YOU THE POWER TO:

-  Avoid fines  
And prevent reputational damage
-  Minimise administrative effort  
With digitised solutions
-  Rely on accurate reporting  
For road-side or regular inspections
-  Improve fleet safety  
While staying compliant

## Our customers say...

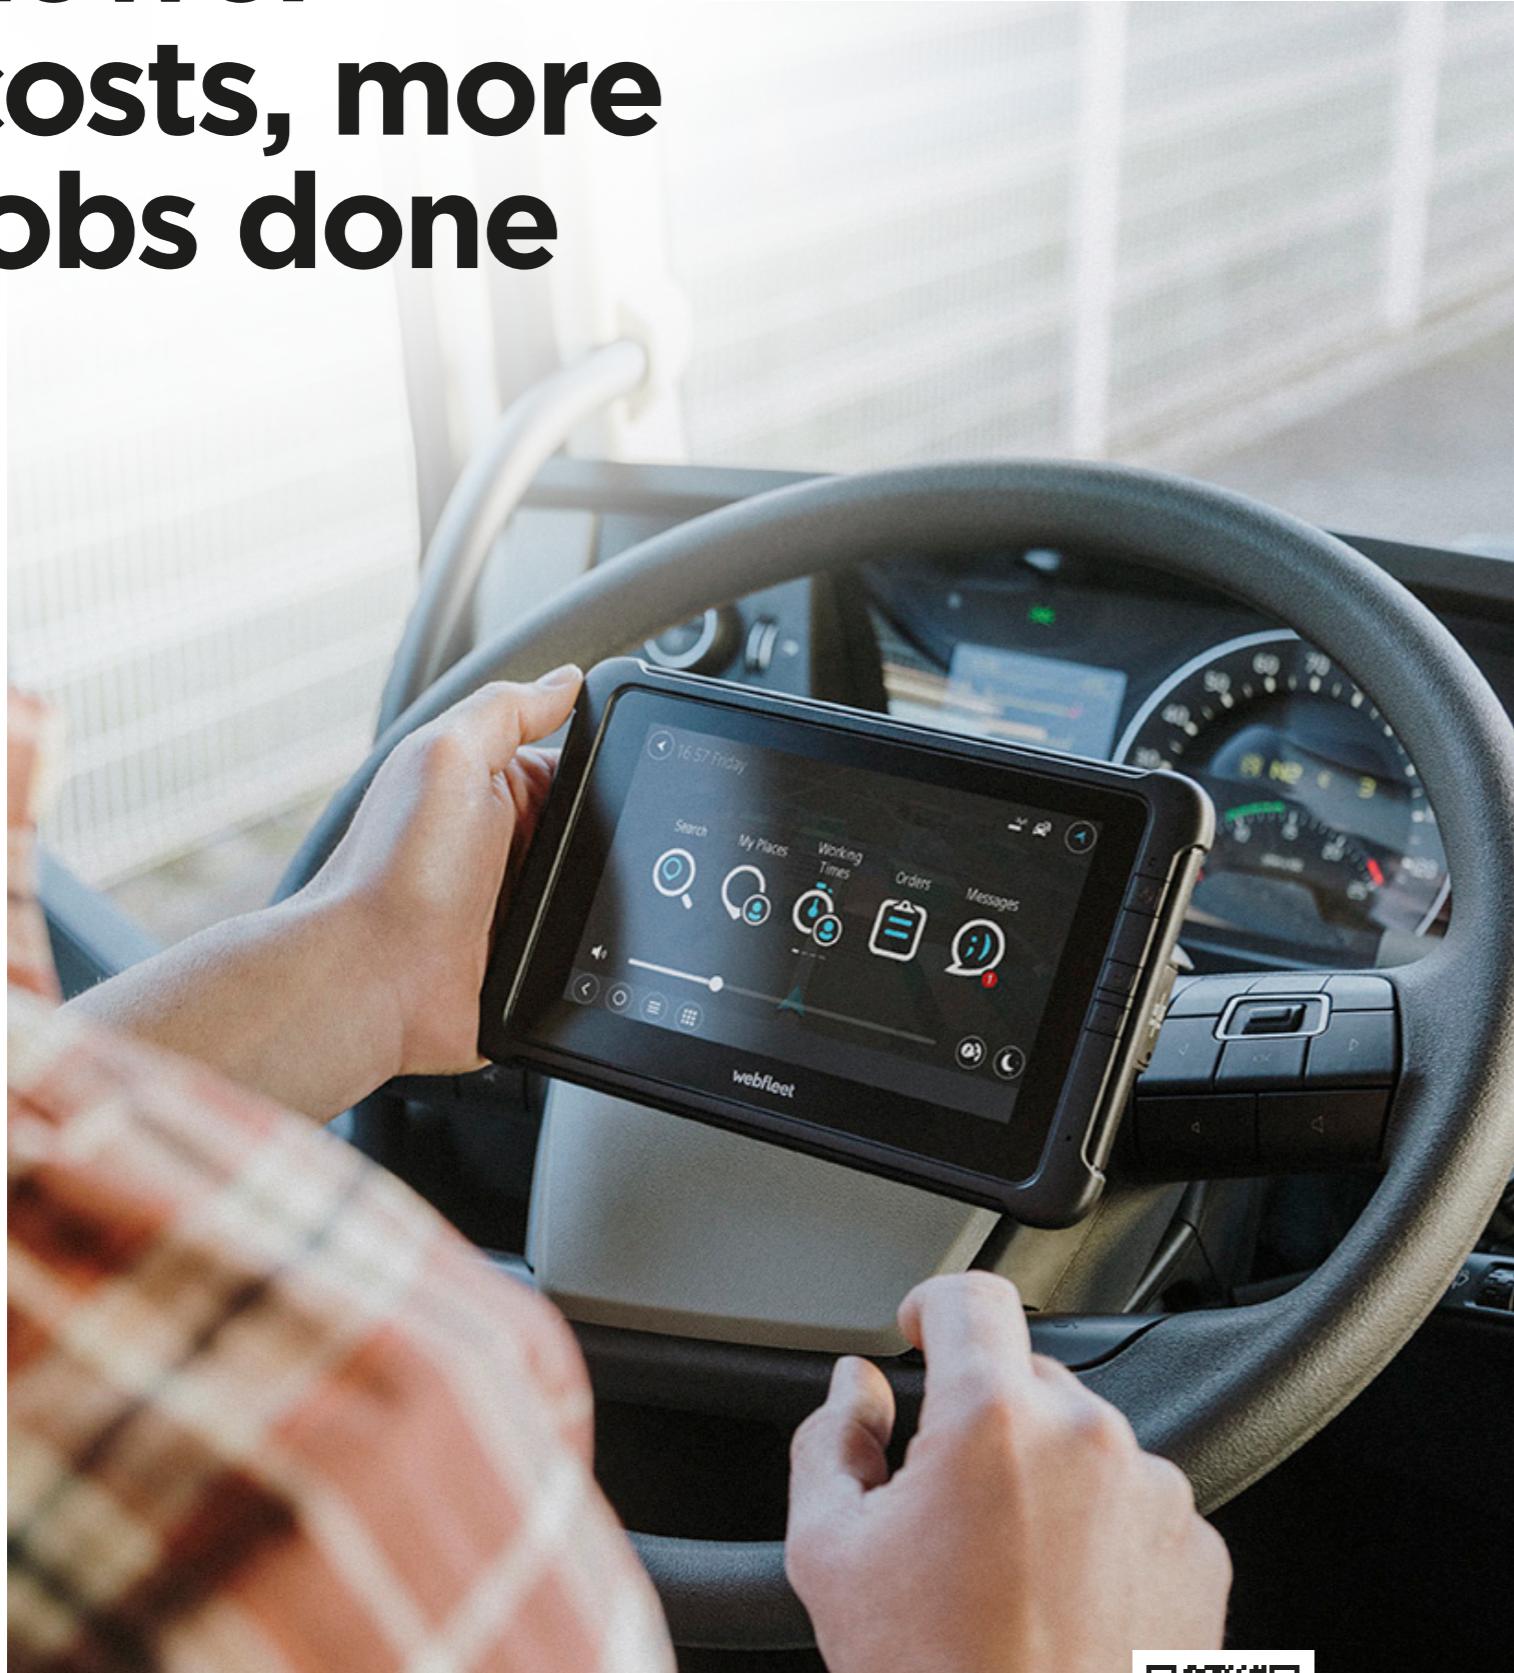

**If Webfleet cost twice as much, we'd still use it.**

*Andy Saunders,  
Contracts Director, Ferns Surfacing.*

## SOLUTIONS

- Tachograph management
- Mileage data tracking
- Digitised vehicle inspections
- Temperature monitoring
- Tyre pressure monitoring
- Permissible weight of cargo

# Lower costs, more jobs done

Scan the code to know more about this topic

Connect our Webfleet solution with a PRO Driver Terminal or the Work App and access all the valuable data you need about your orders and drivers. We support seamless communication with your team in the field, while helping you streamline your workflow management.

## WEBFLEET GIVES YOU THE POWER TO:

-  Complete more deliveries  
With optimised order and workflow management
-  Provide best-in-class ETAs

-  Reduce administration time  
With driver-centric workflow apps
-  Integrate with other business applications  
For bespoke workflow management

Our customers say...

**The integration with Webfleet has increased fleet productivity by 25%**

*Peter Harris,  
Operations Manager, Wright Mix.*

## SOLUTIONS

- Professional navigation
- Order schedule optimisation
- Proof of delivery
- Webfleet mobile app for fleet manager
- Driver-centric workflow apps
- API integration

# Reduce your CO<sub>2</sub> emissions and go electric

Scan the code to know more about this topic

Sustainable fleet or profitable business? Let's do both. With Webfleet, you get accurate, clear visibility over where you produce CO<sub>2</sub>, meaning you can take targeted action to reduce emissions. Whether you want to go electric or train drivers to adopt a more fuel efficient driving style, we have the tools to make it happen.

## WEBFLEET GIVES YOU THE POWER TO:

Cut your CO<sub>2</sub> emissions  
To reduce your impact on the planet

Report your CO<sub>2</sub> accurately  
And stay compliant with regulation

Improve fuel efficiency  
For lower costs and less emissions

Go electric the smart way  
And manage your EV fleet

Our customers say...

**Not only have we seen a 15% reduction in fuel costs and CO<sub>2</sub> emissions, we've made incredible savings on maintenance.**

*Pamela Dennison,  
Communications Manager, W.S. Dennison*

## SOLUTIONS

- CO<sub>2</sub> emission report
- Fuel monitoring and analysis
- Driving behaviour insights
- Active driver feedback and coaching
- Fleet management for EVs
- Tools to support the EV transition
