

# Webfleet Video/ AUX 50

**Maximize your fleet safety and protect your business with our advanced auxiliary camera solutions.**

The auxiliary cameras expand the already-powerful video telematics capabilities of the Webfleet dashcam by providing even more context and documentation of drivers, vehicles and cargo.

## BENEFITS

### **GET INSIGHTS INTO CRITICAL EVENTS**

- Video footage from every angle of the vehicle is displayed alongside driving data for a complete picture of your fleet on the road.
- Offer comprehensive evidence in support of litigation and help exonerate drivers.

### **INCREASE SAFETY AND PROTECT DRIVERS**

- Greater levels of insight help to more efficiently resolve disputes with customers and the public.

### **LOWER THE COST OF CLAIMS AND INSURANCE PREMIUMS**

- Protect your fleet against fraudulent claims, ultimately leading to lower insurance premiums and reduced claim costs.

## FEATURES

### EASY INSTALLATION AND WIRELESS CONNECTIVITY

Simple to install and configure, the auxiliary camera connects to the Webfleet dashcam via Wi-Fi, reducing potential troublesome wiring.

### ENGINEERED FOR EXTREME ENVIRONMENTS

With IP69K certification, the auxiliary camera is dustproof and can withstand high-pressure steam cleaning, which is ideal for harsh environments.

## WHAT YOU NEED

CAM 50

WEBFLEET AND VIDEO LIVE SUBSCRIPTION

## SPECIFICATIONS
