# MANTIS™ webfleet

Partnered with Europe's Largest Telematics Provider

Optimise your fleet with the powerful integration of telematics and camera data from Webfleet & MANTIS.

Enjoy real-time insights, improved safety, and seamless reporting. Transform your fleet management with intelligent, data-driven solutions for maximum efficiency and security.

- Auto-upload of severe braking & steering, AI or panic button events
- Email alerts with direct link to uploaded video
- Download evidence directly to the computer
- Filter and search evidence by any parameter
- Flag evidence for insurance purposes or driver training
- Share incident report and footage internally or with 3rd parties
- Add comments

Live camera view

Keep a pulse on your operations with live feeds from each vehicle. Monitor driver behaviour, track route progress, and ensure compliance with safety standards, all in real-time.

Stream footage and download on demand

Remotely stream and download vehicle camera footage effortlessly.

Evidence Centre

Offering a user-friendly platform to manage, analyse, and leverage your video evidence for improved driver training and incident prevention. Quickly access and share footage of triggered events with third parties for fast response.

Cutting-Edge Connectivity Solutions

Our market-leading connectivity solutions encompass true multi-network 4G data connectivity, offering unparalleled versatility by seamlessly accessing all major networks and automatically roaming onto the strongest signal. This ensures the most stable and reliable coverage for your operations.

Adaptable Data Allowance

With our flexible data allowance of 1GB aggregated packages, you can effortlessly share data among your entire fleet, eliminating concerns about running out of data when you need it most or incurring exorbitant overage fees.

Comprehensive Fault Notifications

Avoid the risk of crucial footage loss due to unnoticed recording failures or memory issues. Our advanced monitoring system promptly alerts you to any such incidents, enabling swift resolution with the assistance of our dedicated team.

Effortless Review and Remote Download

Experience seamless playback of any stored footage, empowering efficient investigation of incidents, and enabling on-demand downloads. There are no restrictions on video clip length or the number of downloads, granting you the freedom to access the content you need without limitations.

Automated Uploads for Swift Action

Through our cutting-edge MANTIS technology, significant events, such as hard braking or cornering, trigger automatic footage uploads to our secure Evidence Centre, boasting 90 days of cloud storage. This eradicates the need to sift through hours of footage, allowing you to respond promptly to critical situations.

Reliable Monitoring Team

Count on our dedicated team of experts, ready to support you in downloading essential footage and proactively reviewing your account for any faults to ensure continuous and uninterrupted recording performance.
